

# St. Patrick's Catholic School

*Empowered today for tomorrow's world.*

February 1, 2018

Dear Families

**Subject: Mathletics**

In 2017 we trialled Reading Eggs and Reading Eggspress and we have made a commitment to using this product this year for students in R4-8 and in the Colgan Learning Hub.

After consideration and consultation with students last year we have decided **not to continue** our commitment with Mathletics. Our main reasons for this are:

- the combined cost of both products was nearly \$50 per student and we felt this was too high.
- last year we noticed a drop in student engagement in the senior school.

We still really value the product and hope to explore other digital learning options for students throughout the year. In the meantime teachers will be making use of free online products.

If you would like to continue with Mathletics and get your child a home subscription you can do this by visiting <http://nz.mathletics.com/home>  
Annual subscriptions usually cost \$99.

Yours sincerely

Paula Carr
